

## SERVICE SADDLES (CSS)

The flexible stainless-steel band allows for easy fitting while wrapping fully around the pipe, providing support and stability – eliminating the “crushing effect” of more rigid products. The band is recessed to correctly position the “O” ring gasket and provide maximum sealing. Recommended for PVC pipe and manufactured to suit sizes up to 14” Cascade service saddles can be fitted with 1/2” through to 2” diameter sockets.

NOMINAL PIPE SIZE		ONE PART		SELECT BSP SIZE REQUIRED		CLAMPS SUITABLE TO FIT
